Please handle  
this item carefully.  
The age that makes  
this item precious also  
makes it very fragile.  
May we preserve  
history for those who  
come after us that  
they may be  
inspired.

## Introductory

In submitting this, the eleventh issue of McCoy's Alton City Directory and the second under the new management to the public, the publishers trust that it will meet with their approval. We assure the public that nothing has been left undone on our part to make the book what it should be—a Directory that directs.

Within its pages will be found a history of the past year's achievements, progress and success. The birth of new businesses, the construction of new buildings, the addition of new families and the growth of established concerns, as well as the City's physical growth through the names and locations of new streets as they gradually spring up on all sides.

## Population

A most interesting feature of a properly made directory is the certain index to population based upon the actual number of individual names in it. The population at the present time, according to the canvass just made is 27,265.

## Advertising Alton

The City Directory serves not only as an invaluable reference book to the residents, but also as a perpetual advertisement to the City. Copies of the Alton Directory are placed in the Directory Libraries of the principal cities throughout the entire United States, where they are available for reference by those seeking information regarding the City, its business interests, or citizens.

We wish to thank our patrons who have made this book possible and the people of the city for their courtesy in giving the information.

**LESHNICK DIRECTORY CO., PUBLISHERS.**

# Five Reasons for Directory Advertising

- 1.—Because the directory will bring the advertiser in touch with the entire population.
- 2.—Because directory advertising is recognized as the most effective and least expensive of any method of reaching all the people all the time.
- 3.—Because the directory is issued only once a year and your expenditure is based on advertising to cover the entire time.
- 4.—Because the directory circulates generally among all the people, although it may not be in use in the homes, yet every member of every home uses the directory in the nearest store or in the office or factory, almost daily.
- 5.—Because the directory is a credit and boost to a community because everybody is interested and represented in it.

1306 H F Berry.

# Five Reasons for Directory Advertising

- 1.—Because the directory will bring the advertiser in touch with the entire population.
- 2.—Because directory advertising is recognized as the most effective and least expensive of any method of reaching all the people all the time.
- 3.—Because the directory is issued only once a year and your expenditure is based on advertising to cover the entire time.
- 4.—Because the directory circulates generally among all the people, although it may not be in use in the homes, yet every member of every home uses the directory in the nearest store or in the office or factory, almost daily.
- 5.—Because the directory is a credit and boost to a community because everybody is interested and represented in it.
